

Silverhooks

— a unique boutique —

SilverHooks.com

SilverHook's is an international importer based in Las Vegas specializing in providing the highest quality women's [purse accessories](#) at outstanding values. We are constantly searching for and developing innovative accessories that will keep you up with the latest trends!

While purses and [handbags](#) are useful, and indeed a statement, there is not always a place to put them. In a restaurant, for example, women sometimes need an extra chair for their handbags, which is not always available. An alternative is to hang them from a chair; however, not all purses have long enough handles for that. Not wanting to hold a purse on one's lap, women often end up putting their handbags on the floor, which brings up all sorts of germ issues, especially in the restroom.

If you are in the market for something to keep your bag clean while on the go than a [purse hanger](#) at SilverHooks is definitely the way to go!
